Profile Summary

Motivated and detail-oriented Computer Science fresher aspiring to become a Software Engineer, with a strong foundation in programming, data structures, and problem-solving. Skilled in Java, Python, SQL, and web technologies (MERN), eager to learn new tools, contribute to real-world projects, and grow as a software professional in a dynamic organization.

Experience

SQL Developer Intern - [certificate](#)

Elevate Labs : (June 2025 – July 2025)

- Successfully completed a **SQL Developer Internship** at Elevate Labs.
- Worked on **real-world database tasks and projects**, applying SQL concepts practically.
- Demonstrated **strong analytical thinking, problem-solving skills, and professionalism**.
- Gained hands-on experience in **SQL queries, database operations, and data handling**.
- Recognized as **Best Performer** for exceptional performance and dedication during the internship.

Skills

Languages : Java , Python , C++ , Javascript , SQL , Php

Tools : Git , Github , VS code , Pycharm

Frameworks : Bootstrap , Tailwind , React , Spring Boot

Databases : MySQL , SQLite , MongoDB

Concepts : Data Structure and Algorithm , SDLC , Data Modeling

Qualifications

Bachelors Of Computer Application(BCA) : 2023-2026

Deogiri College (BAMU University) | CGPA : 7.10 |

Higher Secondar Education (HSC) : 2023

Swami Vivekanand Jr college , Bazar Swangi , Chh.Sambhajnagar | 68% |

Secondar Education (SSC) : 2021

Kids Cambridge English School , Chh.Sambhajnagar | 82% |

Certifications & Achievements

- **Java Developer (Zero To Hero Batch)** : Coding Seekhoo
- **Python Programming** : Coding Seekhoo
- **Data Analytics with Gen - AI** : IMARTICUS Learning
- **Java Development (Certificate of Appreciation)** : Vijesha IT Services LLP
- **TCS iON Career Edge – Young Professional** : TCS iON

Projects

1.Quiz Competition Web App : [Live-Link](#)

Developed a two-player real-time quiz web application using Node.js, Express, and Socket.IO, featuring room creation and joining, a 20-second synchronized timer, single-answer submission, and automatic question progression. Ensured the quiz starts only after both players join and implemented real-time score tracking and comparison, with a responsive frontend built using HTML, CSS, and JavaScript.

2.Metro-Link Sambhajnagar : [Live-Link](#)

Developed Metro Link Sambhajnagar, a web-based metro information and management platform using HTML, CSS, JavaScript, Node.js, and Express, featuring secure user authentication with mobile number and password login. Designed a responsive user interface to display metro routes, station details, schedules, and service updates, while implementing structured backend logic and dynamic content handling to ensure secure access, smooth navigation, and an improved user experience.
